## CARE & SAFETY

- In case of fire, do not attempt to extinguish any burning polypropylene with water. Unsuitable for storage of flammable or corrosive substances.
- It is extremely important to assemble all of the parts according to the instructions. Do not skip any step.
- Once correctly assembled, authorized veterinary permits are required to erect the shed.
- Erected only, the shed must be assured that it remains stable and that the site remains level.
- It is highly recommended to secure the shed to an immovable object or to the ground by using poles in the floor at the pre-marked locations and by using pre-pierced holes in the ground (size: 1 1/2" x 1 1/2"). Screws are not included.
- Wear safety goggles and safety shoes when using the electric saw and the chainsaw.
- Wash shed with garden hose and mild detergent solution. Using a stiff brush or corrosive cleaner could damage shed.
- Fertilizers such as recently used grass, or other chemicals must not be stored in the shed.
- Heavy objects should not be stored against the walls, especially in the roof area.
- Keep roof clear of snow and leaves. Snow and/or ice on the roof can damage the shed making it unsafe to enter.
- Although not recommended, it is an important factor when using the shed where a large number of animals are kept, as a means to reduce the exposure of the shed in general, and the door side in particular.
- Keep doors closed and locked to prevent wind damage.
- Do not store on the roof.
- It is not designed for use as a tent.

## PRÉCAUTIONS ET SÉCURITÉ

- Il est impératif d'arrêter tout usage des piles solaires en l'absence de soleil. Ne pas installer une couche mince d'eau
- Vous devez consulter les autorités locales ou votre commune pour savoir si un permis est nécessaire à la construction de votre remise.
- Vérifiez régulièrement la stabilité de votre remise au thermomètre de point de construction.
- Il est fortement recommandé de faire effectuer des travaux de maintenance réguliers des toits de forage dans le sol aux endroits pré-établis et d'inspecter régulièrement les vis sous le sol (taille 1/2" Ø). Les vis ne sont pas freinées.
- En raison des risques de corrosion, évitez au cours des travaux du forage, d'insérer dans le sol des objets métalliques.
- Évitez la formation de l'oxyde de fer sur le forage. Utilisez une brosse dure ou un produit d'entretien pour l'inox pour l'entretien.
- Les objets en acier, tels que des piles, des métaux, des outils, etc., ne doivent pas être entreposés dans la remise.
- Ne pas déposer d'objets lourds sur les parois et le toit. Évitez d'insérer des objets pointus.
- Maintenez le toit propre et dégagé de neige, de feuilles. De lourdes quantités de neige sur le toit peuvent entraîner la rupture du toit et la rupture de la structure.
- Bien que le climat du vent change, il est important de prendre en compte le fait qu'il y a du vent. Cependant, les recommandations de réduire l'exposition au vent au vent en général, et de la porte latérale en particulier.
- Vérifiez à l'arrière des piles solaires et des câbles de forage.
- Ne marchez jamais sur le toit.

## PFLEGE - UND SICHERHEITS-HINWEISE

- Im Brandfall sollten Sie nicht versuchen, breiteres Polypropylen mit Wasser zuzüscheln! Nicht zur Aufbewahrung von entzündbaren oder ätzenden Mitteln vorgesehen
- Es ist äußerst wichtig, dass eine Teiloberanleitung zur Bedienung erhalten wird. Bitte lassen Sie keine Schmelze verfließen.
- Falls Sie eine Baugruppe für den Gartenschuppen benötigen, wenden Sie sich bitte an die örtlichen Behörden
- Überprüfen Sie den Gartenschuppen regelmäßig gegen Absinken, um sicher zu stellen, dass seine Stabilität – sowie die – der auf dem Standort festgewurde(n) sind.
- Es ist ein Statistiker erforderlich, den Schaden an ein unabhängiges Objekt oder am Boden zu verankern. Das geschieht durch Schrauben in festem und/oder markierten Stellen und das Verankern des Bodens durch die richtigen Schrauben (Größe 19"-21", die Schrauben sind nicht im Lieferumfang)
- Tragen Sie beim Gebrauch von elektrischen Werkzeugen und Schuttrichtungen folgenden Status der Anleitung des Herstellers
- Bitte verwenden Sie zur Bedienung des Schuppens eine nicht Carbonische, sondern ein mildes Pulvermittel. Die Verwendung von Harten Bürsten oder anderen ungenügenden Werkzeugen kann das Material beschädigen
