CAUTION | AVERTISSEMENT | ADVERTENCIA | WICHTIG | WAARSCHUWING | ATTENZIONE | ATENÇÃO

Some parts have steel edges | Please be careful when handling components | Always wear work gloves, eye protection and long sleeves when assembling or performing any maintenance on your shed | Do not attempt assembly on days with strong winds or low temperatures.

Certaines pièces ont des bords en acier | Soyez prudent en les manipulant | Portez toujours des gants de travail, des lunettes de protection et des vêtements lors de l'assemblage ou de l'entretien sur votre abri | N'essayez pas de monter le montage les jours de grand vent ou de grande froid | Veillez à porter correctement que vos vêtements sont bien serrés.

Algunas partes tienen bordes de acero | Tenga cuidado al manejar estos componentes | Use siempre guantes de trabajo, anteojos de protección y mangas largas para armar el cobertizo o realizar cualquier tarea de mantenimiento en el mismo | No intente armar el cobertizo en días de viento fuerte o de baja temperatura.

Manche Teile haben Stahlkanten bitte seien Sie vorsichtig beim Umgang mit diesen | Tragen Sie bei der Montage des Gartenhausbaus oder Wartungsarbeiten die Arbeitshandschuhe, eine Schutzbrille und lange Ärmel | Versuchen Sie nicht, den Gartenhausbau bei starkem Wind oder in kalten Temperaturen zu montieren.

Alcune parti presentano bordi in acciaio | Fare attenzione nel maneggiare i componenti | Indossare sempre guanti da lavoro, protezioni degli occhi e maniche lunghe durante il montaggio o durante la manutenzione | Evitare di eseguire il montaggio in presenza di forte vento o basse temperature.

Algumas peças têm extremidades de aço | Tenha cuidado ao manusear este componentes | Utilize sempre luvas e óculos de proteção, assim como vestuário comprido ao montar ou efectuar qualquer procedimento de manutenção no seu abrigo de jardim | Não monte a abrigos de jardim em dias de vento forte ou de baixas temperaturas.

BEFORE STARTING ASSEMBLY | AVANT DE COMMENCER LE MONTAGE | ANTES DE EMPEZAR EL ARMADO | VOOR MONTAGEBEGIHN | VOORDAT U BEGINT TE MONTEREN | PRIMA DI INIZIARE IL MONTAGGIO | ANTES DE INICIAR A MONTAGEM

Remove all of the pieces from the 3 packages and spread them out on the ground | It is recommended to use a clear work surface to spread the parts out and for pre-assembly steps | Review all instructions before you begin, continue to refer to instructions during assembly | Be sure to follow all steps thoroughly | Parts are color coded in instructions to indicate which parts shall be used during a given stage | Please prepare these components in advance at the beginning of each stage.

Virez les 3 boîtes et étevez toutes les pièces sur le sol | Il est recommandé d'utiliser une surface de travail propre pour déposer les pièces et les étaler et pour les étapes de pré-assemblage | Veuillez bien lire toutes les instructions avant de commencer et continuez à vous y référer pendant le montage | Assurez-vous de suivre scrupuleusement toutes les étapes | Les pièces sont présentées suivant un code de couleurs dans les instructions pour indiquer clairement celles à utiliser à chaque étape | Veuillez les préparer à l'avance au début à mesure des étapes.

Saque de los 3 embalajes todas las piezas y extienda-as en el suelo | Se recomienda usar una superficie de trabajo limpia para disponer las partes y para realizar los pasos de prearmado | Lea todas las instrucciones antes de empezar, y siga remitiéndose a las durante el armado | Asegúrese de seguir todos los pasos con atención | Obsérve que las partes están codificadas con colores diferentes en las instrucciones para indicar qué parte se debe usar en cada etapa | Se recomienda preparar las partes antes de empezar cada etapa.

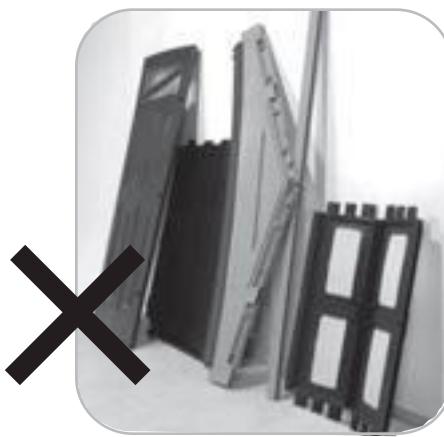

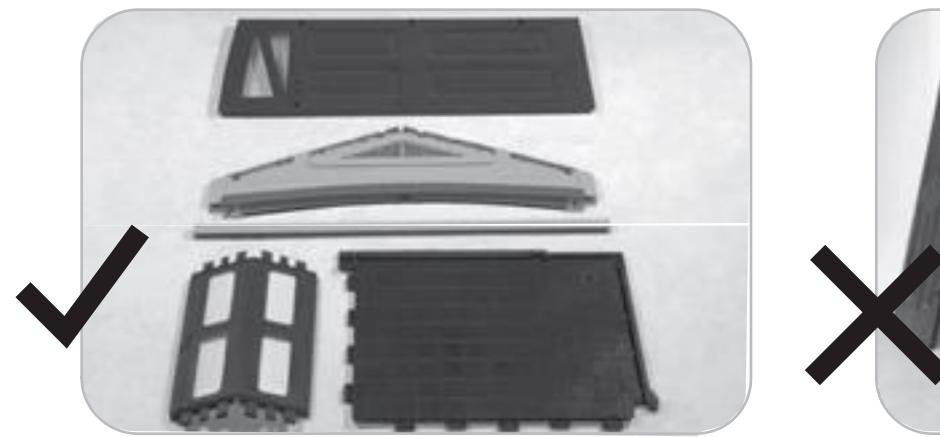

Aufe alle den 3 Packungen entnehmen und auf dem Boden bereitlegen | Es wird empfohlen die Teile zu einer sauberen, glatten Unterlage auszubreiten und Vorbereitungen für den Zusammenbau zu treffen | Lesen Sie die Anleitung vor Beginn der Montage gründlich durch und richten Sie sich dann nach diesen | Vergewissern Sie sich, dass Sie allen Montageschritten genau folgen | Unter Anleitung sind die Teile farblich gekennzeichnet, um sie anzuzeigen, welche Teil in welcher Aufbauphase benötigt wird | Bitte sortieren Sie die Teile zu Beginn jeder dieser Phasen.

Verwijder alle onderdelen uit de 3 pakketten en spreid ze uit op de grond | U wordt aangeraden een schoon werkoppervlak te gebruiken om de onderdelen op uit te spreiden en voor de voorbereiding op de montage | Bekijk alle instructies voordat u begint en raadpleeg tijdens de montage de instructies | Zorg dat u alle slagen u voerig opvolgt | In de instructies zijn de onderdelen met kleuren gekodeerd om aan te geven welke onderdelen u tijdens een gegeven fase dient te gebruiken | Voordat u begint, de onderdele klaar te leggen.

Rimuovere tutti i pezzi dai 3 imballaggi e stenderli a terra | Si raccomanda l'uso di un piano di lavoro sgomato per la sistemazione dei componenti e lo sviluppo delle fasi di costruzione | Leggere tutte le istruzioni prima di iniziare e continuare a riferirsi alle stesse durante il montaggio | Assicurarsi di seguire attentamente tutte le procedure | Nelle istruzioni, le parti sono contraddistinte da colori e codificate secondo le indicazioni sulle quali parti utilizzare nel corso di una particolare procedura | Preparare queste componenti a tempo in ogni fase.

**BEFORE STARTING ASSEMBLY | AVANT D' COMMENCER LE MONTAGE | ANTES DE EMPEZAR EL
ARMADO | VOOR MONTAGEBEGINN | VOORDAT U BEGINT TE MONTEREN | PRIMA DI INIZIARE
MONTAGGIO | ANTES DE INICIAR A MONTAGEM**

Retire todas as peças dos 3 pacotes e espalhe-as no chão | Recomenda-se o uso de uma superfície de trabalho limpa para distribuir as peças e para os passos de pré-montagem | Leia todas as instruções antes de iniciar e consulte-as durante a montagem. Siga atentamente os seguintes passos | As peças estão marcadas com cores nas instruções para indicar quais deverão ser montadas numa determinada fase de montagem | Prepare antecipadamente estes componentes no início de cada fase.

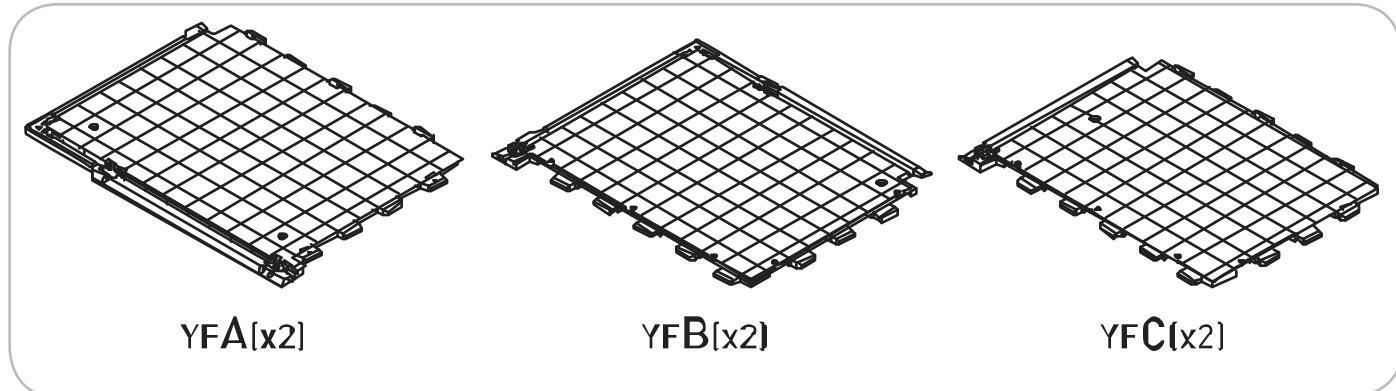

ASSEMBLY REQUIRES TWO PEOPLE | LE MONTAGE DOIT ÊTRE FAISSE PAR DEUX PERSONNES | SE NECESITAN DOS PERSONAS PARA ARMAR | Zwei PERSONEN ZUR MONTAGE NOTA FERN | MONTAGE VERFEST TWEE PERSONEN | MONTAJE REQUIERE DUE PERSONE | A MONTAGEM EXIGE DUAS PESSOAS

ASSEMBLY PARTS | PIÈCES À ASSEMBLER | PIEZAS DE ENSAMBLE | MONTAGETEILE | MONTAGESTÜCKEN | PARTES DA MONTAR | PEÇAS DE MONTAGEM

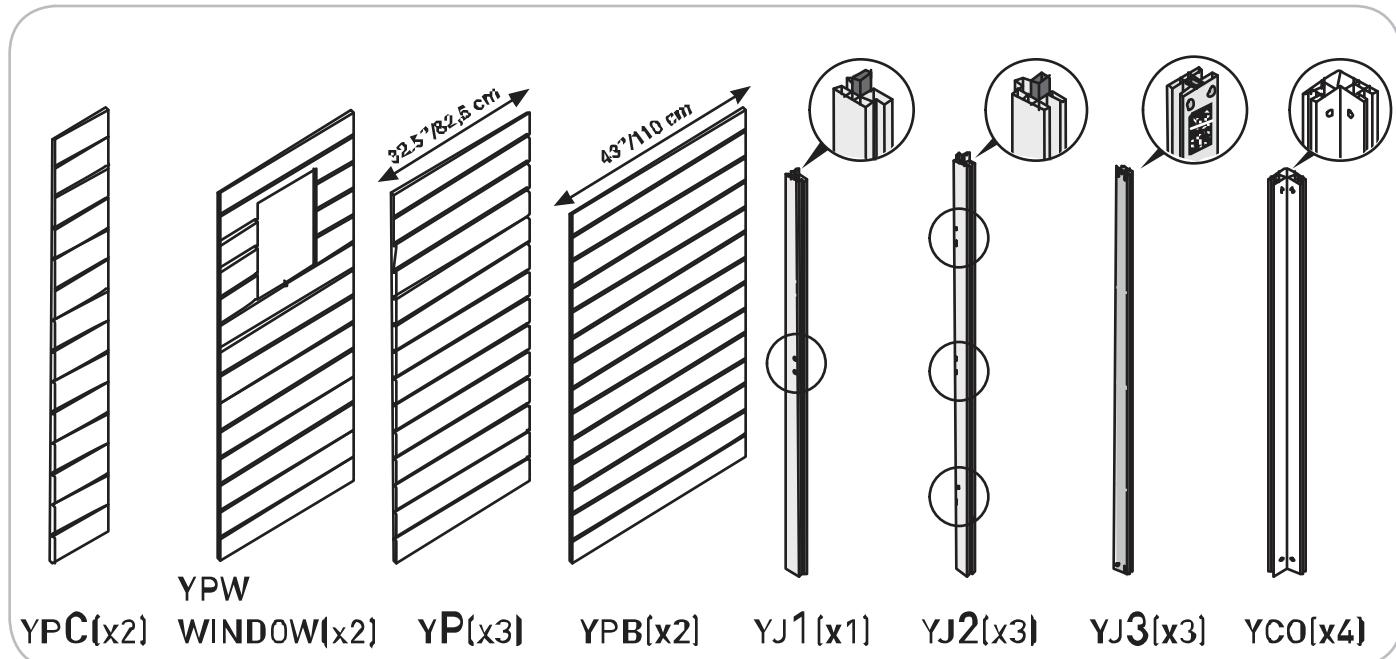

For easy identification of the parts, code letters are imprinted on them | Pour une bonne édition plus aisée, des lettres sont imprimées sur les pièces de chaque pièce | Para una fácil identificación de las piezas, éstas llevan letras de código impresas | Für einfache Identifizierung der Teile sind Buchstaben auf diesen eingeprägt | Voor het makkelijk identificeren van de onderdelen zijn er codeletters op aangebracht | Per la identificazione più semplice, le lettere del codice sono state stampate su ciascuna parte | Para uma fácil identificação das peças, foram impressas letras nas mesmas.

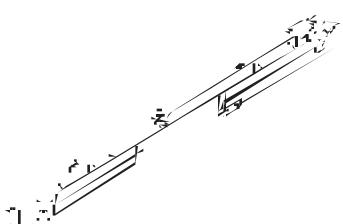

Packaging may contain some additional small parts to be kept for use as spare parts | L'emballage peut contenir des petites pièces supplémentaires à conserver comme pièces de rechange | El embalaje puede contener algunas partes pequeñas adicionales que se deben guardar para ser usadas como repuestos | Die Verpackung kann eventuell zusätzliche Kleinteile enthalten, die in Zukunft als Ersatzteile verwendet werden können | De verpakking kan enkele extra kleine onderdelen houden die als reserveonderdelen kunnen worden gebruikt | A embalagem poderá conter algumas peças pequenas adicionais que devem ser guardadas como peças de reposição | La confezione potrebbe contenere piccole parti supplementari da utilizzare come parti di ricambio.

sC1(x18)

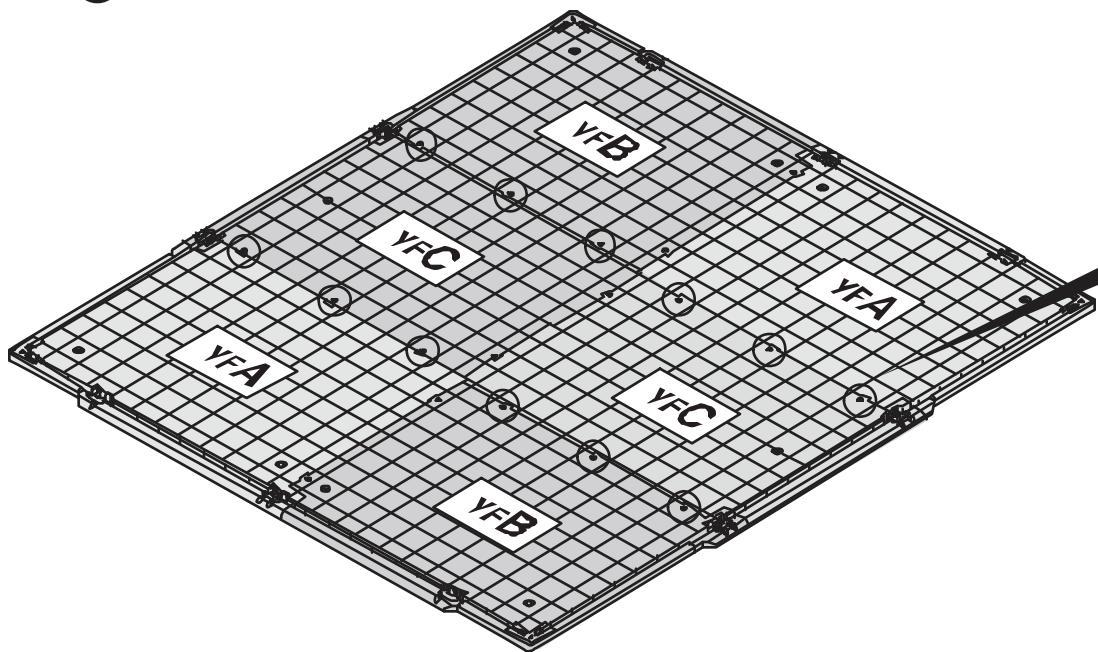

1

sC1(x6)

2

sC1(x12)

Door and window configuration:

1. Decide on which side the double door will be located before beginning assembly.
2. Single door must be assembled in the center of the larger size (~9 ft) of the shed.
3. Double door must be assembled in one of the shorter sides (~8 ft) of the shed.
- * Please note: Cong (Forward) the assembly in one row. This is the only row you can assemble the shorter end slope as shown in the graphic. You can't turn the door double door on the shorter right side, please adjust the assembly instructions accordingly.

Configuration des portes et fenêtres :

1. Decidez de quel côté se trouvera l'entrée principale avant de commencer le montage.
2. La porte simple doit être montée sur la partie du côté à une longueur (~9 mètres) de l'abri.
3. La porte double doit être montée sur le bord court (~8 mètres) de l'abri.
- * Veuillez noter : Pour les étages suivantes, les instructions de montage. Utilisez la porte double assemblée du côté gauche le plus court comme monté sur le dessin. Si vous décidez de monter la porte double sur le côté droit le plus court, reglez les instructions d'assemblage en conséquence.

Configuración de puertas y ventanas:

1. Decida dónde ubicarán las principales y ventanas antes de comenzar a ensamblarlo.
2. La puerta individual debe ensamblarse en el lado más largo (~9 pies) del cobertizo.
3. La puerta doble debe ensamblarse en cualquiera de los costados más cortos (~8 pies) del cobertizo.
- * Nota importante: para adelantarse, en esta ocasión de ensamblaje, use la puerta doble que se ensambla en uno más corto (~8 pies) de la izquierda, según se muestra en el gráfico. Si usted decide ensamblar la puerta doble en el lado más corto de la derecha, ajuste las instrucciones de acuerdo con lo que sigue.

Tor- und Fensterplatzierung

1. Bevor Sie mit dem Montage beginnen, entscheiden Sie sich die auf welche Seite Sie die Türe auf der einen Seite und Fenster auf der anderen Seite.
2. Die Fenster (grün) müssen vor Mitte oder längeren Seite (ca. 4,7 m) montiert werden.
3. Die Doppeltüre (rot) kann an jeder der kurzen Seiten (ca. 2,4 m) des Schuppen montiert werden.
- * Bitte beachten Sie: In den oberen Teilen der Montagelösung wird die Doppel Tür abgebildet, wissen Sie aber, dass die beiden Sektionen nicht voneinander trennen können, um die Doppel Tür an der kürzeren rechten Seite zu montieren. In diesem Fall ist die Anleitung entsprechend korrigieren.

Deur- en raamconfiguratie:

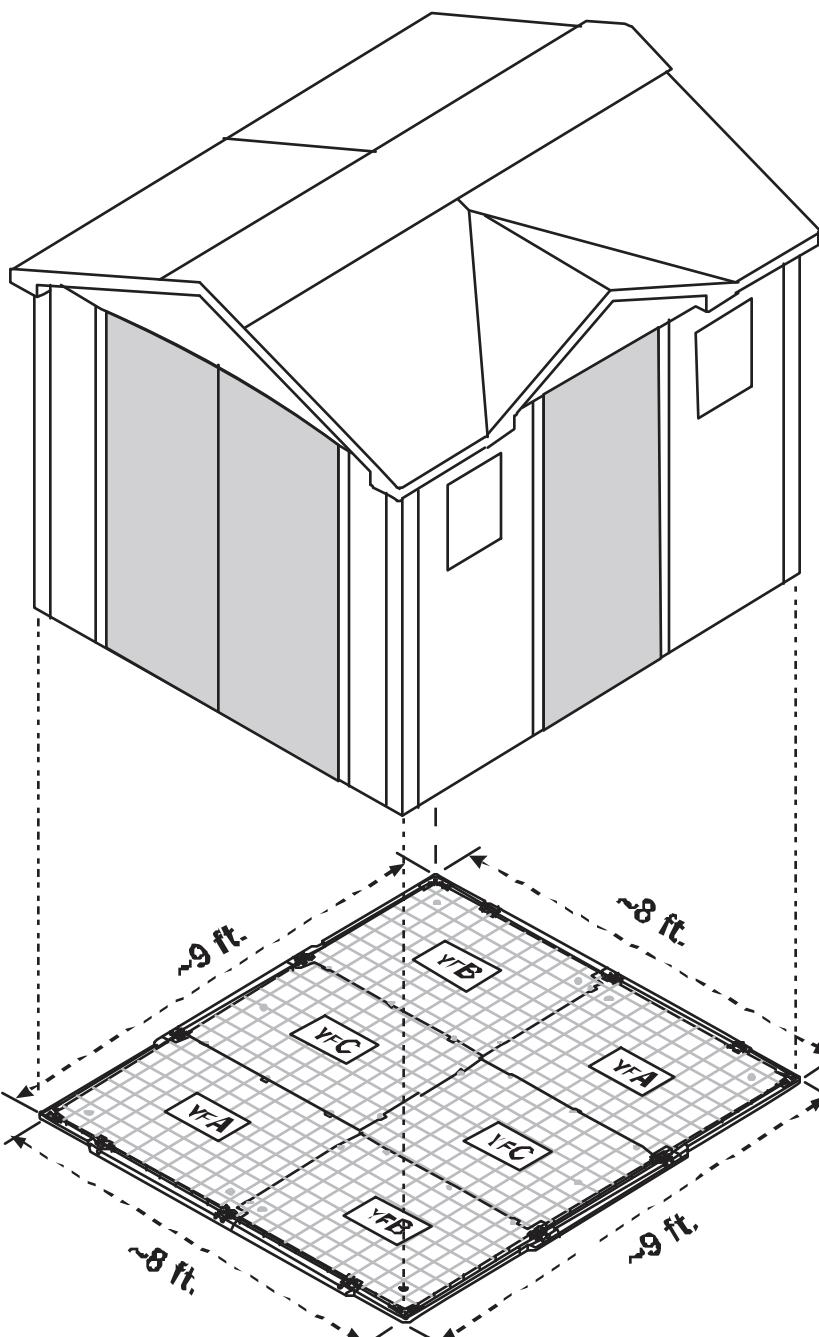

1. Besla voorkeur om de montage te beginnen, een welk kant de deuren of ramen zullen worden geplaatst.
2. Enkele deur (groen) moet in het midden van de lange kant (~2,4 m) van het schuur gebouwd worden.
3. Dubbele deur (rood) moet op een van de korte zijden (~2,4 m) van het schuur gebouwd worden.
- * Let op: erwijl u dat u de montage instructies volgt en de montage instructies niet op de dubbele deur op de korte zijde wordt aangegeven, zoals op de linkerkant, de afbeelding wordt getoond. Als u beslist om de dubbele deur op de rechter zijde te monteren, moet u de montage instructies overeenkomstig aanpassen.

Configurazione porte e finestre:

1. Decidere su quale lato collocare porta e finestre prima di iniziare l'assemblaggio.
2. La porta singola (Verde) deve essere montata nel centro del lato più lungo (2,74 m) del deposito.
3. La porta doppia (Rosso) deve essere montata in uno dei due lati corti (2,44 m) del magazzino.
- * Attenzione: Da qui in avanti le istruzioni per l'assemblaggio fanno il montaggio della porta doppia sulla sinistra sul lato corto come indicato nello schema. Se si decida di mettere la porta doppia sulla destra sul lato corto, regolare le istruzioni di assemblaggio conseguentemente.

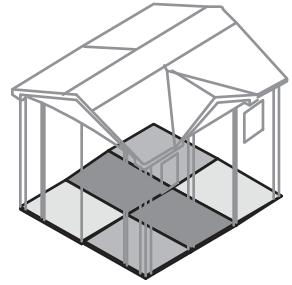

Configuração de porta e janelas:

1. Decida de que lado coloca as portas e janelas antes de iniciar montagem.
2. A porta simples (verde) deverá ser montada no centro do lado com prumo (~2,74 m) da garagem.
3. A porta dupla (vermelha) deverá ser montada num dos lados mais curtos (~2,44 m) da garagem.
- * Nota: Ao seguir as instruções de montagem fique em mente que a porta dupla no lado esquerdo é montada conforme apresentado no gráfico. Se decidir instalar a porta dupla no lado direito, ajuste as instruções de montagem de conformidade.

Securing the shed to a foundation

Use the holes in the floor panels as indicated in the picture to attach the shed to the foundation. The screws (10 units) should be 4 inches/10cm long and suitable for the type of material the foundation is constructed from. Screws are not included, but can usually be purchased at your local hardware store.

Fixer l'abri sur une fondation

Utiliser les trous dans les panneaux de sol comme indiqué sur la photo pour attacher l'abri à la fondation. Les vis (10 unités) doivent être de 4 pouces/10 cm de longueur et convenir au type de matériel qui constitue la fondation. Les vis ne sont pas incluses mais elles peuvent être toutefois achetées au magasin de quincaillerie locale.

Cómo asegurar el cobertizo a un cimiento

Utilice los orificios que están en los paneles del piso, según se indica en el cuadro para, fijar el cobertizo al cimiento. Los tornillos (10 unidades) deben ser de 4 pulgadas/10 cm de largo y adecuados para el tipo de material del cual está construido el cimiento. Los tornillos no vienen incluidos, pero normalmente podrá encontrarlos en su tienda local.

Befestigen des Schuppens an ein Fundament

Bringen Sie die Löcher in den Bodenplatten wie in der Abbildung angezeigt, um den Schuppen an das Fundament zu befestigen.
Die Schrauben (10 STÜCK) sollten 4" / 10 cm lang und an das Material des Fundaments angepasst sein.
Die Schrauben sind nicht im Lieferumfang, können aber in örtlichen Baumärkten erworben werden.

Het schuurtje op het fundament vastzetten

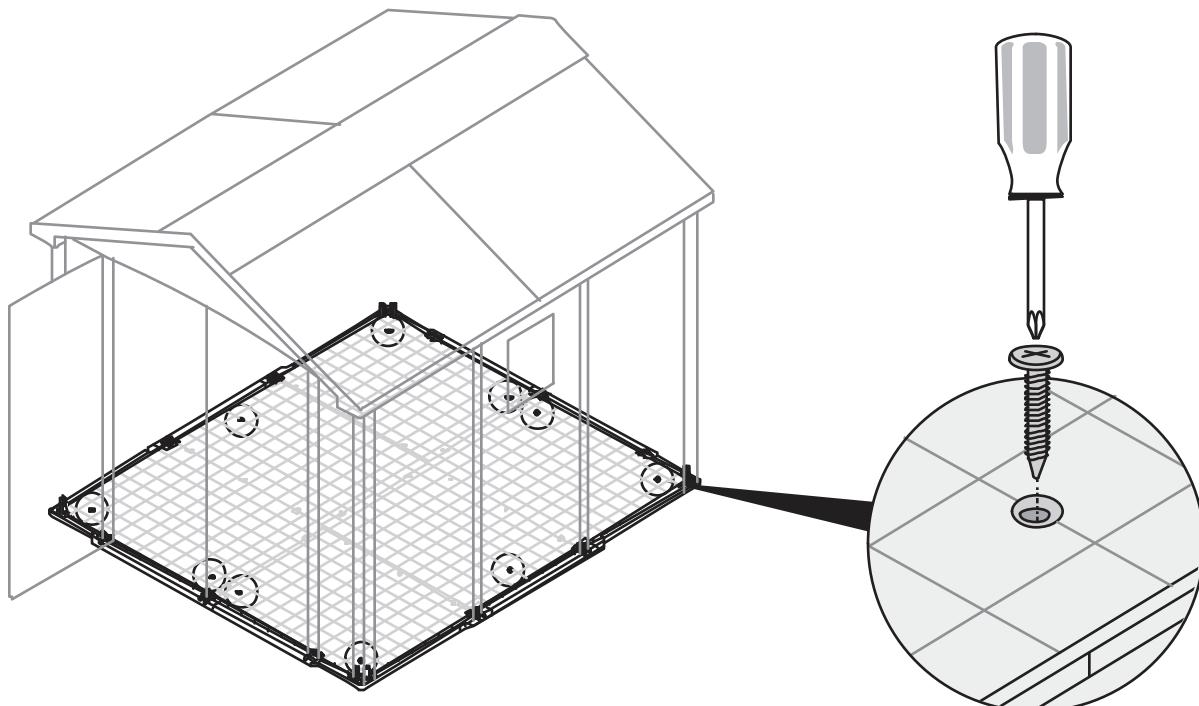

Gebruik de gaten in de vloerpanelen zoals in de afdeling wordt weergegeven, om het schuurtje op het fundament vast te zetten.
De schroeven (10 Fenheden) moeten 10 cm lang zijn en geschikt voor het type materiaal waarvan hetfundament is gemaakt.
Schroeven zijn niet ingepakt maar kunnen meestal bij uw plaatselijke doe-het-zelf-winkel worden gekocht.

Assicurare la casetta a un basamento

Utilizzare i fori presenti nei pannelli del pavimento indicati in figura per fissare la casetta al basamento.
Le viti (10 Unità) dovranno avere una lunghezza pari a 4 pollici/10 cm, nello stesso caso si adatta al tipo di materiale con cui è costruito il basamento.
Le viti non sono comprese nel kit di montaggio, ma possono essere facilmente acquistate nel più vicino negozio di ferramenta.

Fixar o abrigo em fundações

Use os orifícios nos painéis do chão, conforme indicado na imagem, para fixar o abrigo às fundações. Os parafusos (10 Unidades) devem ser de 4 polegadas/10 cm e adequados ao tipo de material usado na construção das fundações.
Os parafusos não estão incluídos, mas normalmente podem ser adquiridos na sua loja local de ferragens.

LIMITED 10-YEAR WARRANTY

KETER is committed to quality, design and innovation. The use of bags and boxes is mandatory for all KETER products under our strict quality control and supervision. Please note that products are produced from the finest materials which are "clear" non-toxic and completely recyclable. If this is broken please address your claim to customer service either by phone or through our web site: www.keter.com. The bags are currently available from the date of purchase and with a valid proof of purchase. Each bag should be presented upon request. www.keter.com terms of guarantee for quality, safety and durability are valid in any country part of the law due to structural defects, faulty materials or damage due to aging. The right to sue will be limited to one year from the date of purchase.

Exclusions of limited warranty: The limited warranty does not apply to damage or replacement of parts caused by misuse, abuse, neglect, or cleaning with wrong cleaning methods or wrong cleaning products. The limited warranty does not cover normal wear and tear, loss of capacities or damage caused by insects, pests, fire, water damage, lightning, or other natural disasters. The limited warranty does not apply to damage resulting from facts of nature such as rain, storm, lightning, humidity, cold, heat, excessive use, or damage due to the negligence of the customer or his/her employees. The limited warranty does not apply to damage due to any commercial purpose. Any damage which causes the limited warranty to become void. After a claim has been settled, the guarantee period will be reduced by the time of the repair.

GARANTIE LIMITÉE DE 10 ANS

Dernièrement pour ce secteur et ses produits, KETTER est devenu, en un rien de temps, une référence dans la qualité, le design et l'innovation. L'ensemble de la gamme de bâches et des pare-soleils est fabriqué à partir de matériaux de grande qualité selon des procédés de contrôle et de surveillance rigoureux. Veuillez nous faire part de vos demandes et nous nous ferons un plaisir de vous conseiller sur les meilleures matières premières et les solutions de systèmes « vivaces » qui sont entièrement recyclables. Dans le cas où vous rencontrerez un problème, veuillez nous faire savoir et nous résoudrons rapidement votre problème. Nous avons également mis en place un système de garantie limitée sur nos produits à date d'achat et avec un déclencheur automatique. Pour toute information supplémentaire, veuillez nous contacter à l'adresse : www.ketter.com. La garantie limitée est valable à compter de la date d'achat et avec un déclencheur automatique. Le présent document demande à l'expéditeur de faire des tests de pression et de stabilité sur ses produits et à l'importateur de se soumettre à une évaluation complète du produit.

En cas de la perte d'un feuille garantie dans une autre en cas de vol ou de démontage, il est possible de remplacer celle-ci par une autre équivalente et ce relayant avec des motifs ou des documents reçus. La garantie limite ne couvre pas les cassures ou éclatements d'objets provoqués par des chocs ou des accidents. La garantie n'offre pas de remboursements pour les dommages matériels ou accessoires. La garantie n'apporte pas aux dommages résultant des forces de la nature, tels que crues, tempête, tremblement de terre, etc. La garantie limitée est délivrée au premier acheteur du produit et n'est pas transférable. Il est également interdit d'utiliser le produit à des fins commerciales ou industrielles quel qu'en soit le type d'utilisation. L'utilisation d'un produit défectueux peut entraîner des dommages corporels ou matériels.

GARANTÍA LIMITADA - 10 AÑOS

El resultado de la respuesta del cliente es que el proveedor de servicios de telefonía móvil se convierte en el proveedor de servicios de telefonía móvil más querido y preferido por el cliente. El cliente se siente valorado y respetado, ya que su experiencia con el proveedor de servicios de telefonía móvil es positiva y satisfactoria.

En caso de que la garantía limitada de la garantía no se aplique a los productos que se hayan fabricado o montado incorrectamente, se pagará únicamente de forma parcializada. Se devolverán las piezas que se hayan usado incorrectamente y se reemplazarán con otros productos similares de igual costo. La garantía no cubre los daños causados por negligencia, descuidos o desgaste natural, los cortes o arranques de los cables causados por golpes o accidentes. La garantía no cubre los cables regulares y los tubos. La garantía no cubre ni sustituirá aquello que no es fabricado o montado por el cliente. Los productos KETTER están diseñados para su uso en exteriores y no deben ser utilizados en interiores. Es responsabilidad del cliente garantizar que el producto sea utilizado de acuerdo con las instrucciones de funcionamiento y mantenimiento. El uso de piezas que no sean de la marca o modelo original o que no estén autorizadas por el fabricante puede invalidar la garantía.

BEIGELEID=10-JAHRESGARANTIE

K II kann immer Rettungsmaßnahmen erfordern die Ergebnisse seines Engagementes und so den Erhaltswertung der Qualität, Design und Innovation. Das gesamte System kann Schäden und Fehlverhalten in allen Maßen in einem strengen Kritik und Überwachung versteckt. Produkte werden durch die Belebung der entsprechenden Systeme möglichst keinen Verlust an Qualität oder Leistungsfähigkeit haben. Innerhalb eines 10-Jahres-Zeitraums werden Sie sicher sein.

Careniticausfall: Die bevorrechte Carenita eignen sich für Produkte, die auf volleiche Weise exponiert oder zusammengefasst, unbeschädigt verworke, falsch oder schlecht verarbeitet werden. Beispiele für solche Produkte sind frische Belegungsmaterialien, gebratene Würste, abgekochte Karotten oder eine normale Abzehrung. Seltener eignet Käse oder Schalen, die durch Schnittgitter in kleine Ecken und Winkel geschnitten sind. Begrenzte Carenita eignen sich ebenfalls für Niederschläge. Die begrenzte Carenita eignet sich für Spalten, die auf grobe Weise zerteilt wurden, wie z.B. Guava-Tomate-Mixkörner, schwere Feuerwehrwirkungen bzw. entstanden sind. Die begrenzte Carenita eignet sich ebenfalls für unvollständige Küchen, die Produkte ohne unmittelbare Verarbeitung oder deren Nutzung bei KIEFF-Zwecken, die die präzisen Bedürfnisse nicht berücksichtigen. Eine Nutzung der Carenita eignet sich für Niederschläge. Je höher die Carenita eingesetzt wird, desto besser ist die Carenita eingesetzt. Anstreben konzentriert sich auf die Carenita eingesetzten Produkte, um diese zu optimieren. Bei höheren Stufen kann es jedoch zu einem Anstieg der Kosten führen.

PEPERKETE 100- JAIGE GARANT E

DEEL EK-15: BANDELENBARTELI
De eigen bekende reputatie en een KETE-vezel dat leidt tot de producten en het resultaat van toegevoegde waarde voor kwa. lei., ontwerp en innovatie, is een volledige essentieel, meer achtergrond, maar ook van hoger kwaliteit dan de regelmatig gedane contracten die steeds looptijd. Wij zijn verantwoordelijk voor de producten van de basis en de "diverse" grondstoffen en met toxische en zedigheid gebaseerd. Met hulp van een of meer eigen mensen, partners en leveranciers, kan de behoeften van de dienstverlening worden gescreven op telefonisch of via onze website, www.ketelco.nl. De opeenvolgende artikelen zullen van het moment van concept tot basis van een gedecideerde bewijzen van succes. Hoofdachtergrond is dat we een belangrijke rol spelen in de industrieën die gebruik maken van de diensten van KETE-vezel, omdat de KETE-vezel een goede goedkeuring heeft en dat de diensten die wij leveren, kunnen worden gebruikt om de producten te ondersteunen en te versterken. Als een deel van de KETE-vezel, kunnen wij de diensten van KETE-vezel leveren en dat is een belangrijke voorwaarde voor ons.

Is de belangstelling voor de gezondheid van de producenten en de verbruikers zo groot dat het gebruik van met verouderde schijfjes moet worden verboden? De overige gezondheidsrisico's voor normale subjecten moeten worden bestudeerd en de gevaren voor de gezondheid van de gezondheidszorg en de gezondheid van de arbeiders moet worden beoordeeld. De gezondheid van de arbeiders moet worden bestudeerd en de gezondheid van de arbeiders moet worden beoordeeld. De gezondheid van de arbeiders moet worden bestudeerd en de gezondheid van de arbeiders moet worden beoordeeld.

GABAN/ALUM [AIAH] 1 ANN

Le buone raccomandazioni di oggi sono le pietre angolari su cui si ergerà il castello della domani. Ecco perché è importante che i ragazzi si impegnino a mettere insieme i mattoni giusti.

stato con l'attuale comitato di governo un relazione telefonica assolutamente favorevole in quanto elencato come clamoroso incidere. In caso di vittoria dovesse verificarsi un problema, si prega di presentare i propri reclami e servizi, e eventualmente fornire i dati elementari del nostro socio. Il presidente della ditta è deceduto e sotto lo stesso è presente d'unadeguata prova o documentazione accertante che la società non ha ricevuto alcuna protesta da parte sua. Al II Riconcilio sono venute le proprie dimissioni e stabilità sono buone. La ditta ha avuto una serie di successi e di vittorie anche nella sua realizzazione, spesso contro le riviste, e l'et. legalità lo lascia tranquillo. Avrebbe voluto essere conosciuto per il periodo di 10 anni dalla data di accettazione.

L'acquisto della garanzia militare è possibile garantire i militari con il deposito di prodotti che sono stati mantenuti e conservati in modo corretto, o che sono stati utilizzati adeguatamente e senza danni non-accidentali. I militari stessi hanno la capacità di salvaguardare i prodotti con corrette manutenzione e conservazione. La garanzia militare non copre eventuali danni dovuti alla tenuta e alla gestione dei prodotti, come ad esempio i danni accidentali, o che riguardano la garanzia militare con le apparecchiature di cui sopra, o "della natura", come ad esempio i danni da tempeste, terremoti, uragani, e altri fenomeni simili, fenomeni che la garanzia militare non copre. I militari possono essere autorizzati a ricevere il prezzo per il prodotto, ma non per i servizi. Una commissione o piuttosto, un accordo, può incoraggiare i militari a lasciare la loro casa a scopi militari, in particolare, per motivi di immigrazione, e nella presente legge, si intende che i militari siano tenuti a mantenere la loro casa a scopi militari, in particolare per motivi di migrazione, e nel caso di acquisto di un prodotto, il prezzo di conservare lo scritto originale, con il crescente mercato d'investimenti e avvenimenti nell'ambito del campo dei servizi.

GARANTIA LIMITADA DE 10 - ANOS

Agora é a sua vez é óbvio que cada deus novo é comum e você só compra o que você precisa. Cada bala deve ser apresentado para a sua atenção. A KETE - Istra tem uma variedade de bons resultados em termos de alto lucro e baixo custo. Infelizmente, com isso na economia de hoje, qualquer produto ou peça que se envolve em uso e efeitos e futuros de fabricação que se envolve em uso e desculpa reação ao orçamento, por um período de 10 - anos e com o de e nicial de consumo.

CARE & SAFETY

- In case of fire, do not attempt to extinguish any burning oil or propane with water! Unsuitable for storage of flammable or corrosive substances.
 - It is of utmost importance to assemble all of the parts according to the instructions. Do not skip any step.
 - Please contact your local authorities if any permits are required or requested.
 - Periodically check shed to ensure that structure is stable and the roof sheathing is level.
 - It is highly recommended to secure the shed to an immovable object or to the ground by driving spikes in the floor at the pre-marked locations and securing a piece of steel to the ground (see L19753) spikes are not included).
 - Wear safety goggles and always blow the material off clothing, curtains when using power tools.
 - Wash hands with garden hose and mild detergent after work. Using a stiff brush or soap as a cleaner could damage shed.
 - Let others such as recently used grills, blow dryers etc. rest, before stored in the shed.
 - Do not climb up on the roof board against the walls, as this may cause a start-up.
 - Keep the clean - snow and leaves, debris and other stuff you don't want to damage the shed make yourself to enter.
 - Although wind direction is less important factor when doing the project where to place your shed. The more this recommended to reduce the exposure of the shed, high wind and the side side in particular.
 - Keep doors closed and locked to prevent wind damage.
 - Do not stand on the roof.
 - See the instructions for more information.

PRÉCAUTIONS ET SÉCURITÉ

- En cas d'incendie ne pas lancer de laitante le PCI. Propylène bruté avec de l'eau. Ne convient pas pour le stockage de substances inflammables ou caustiques.
 - Il est recommandé de mettre toutes les sorties dans les "retrofusibles". Ne pas ouvrir une ouverture à ce stade.
 - Veillez à consulter les autorités locales de votre commune pour savoir si un arrêté local nécessite la construction d'un "Abri".
 - Veillez également à consulter votre Abribell pour connaître le système de construction.
 - Il est fortement recommandé d'en faire vers un endroit stable et vers le bas afin de bloquer le froid dans le sol au niveau où les matériels sont stockés. Cependant les zones des articles 19 et 20 ne sont pas interdites.
 - Portez des lunettes de protection et évitez toujours les retrofusibles du feu lorsque vous utilisez ces outils électriques.
 - Lavez la AoT au moyen d'arrosage pour éviter un dégagement toxique. L'arrosage doit durer au moins 10 minutes.
 - Des objets peuvent être stockés sur le terrain retrofusible des deux types, mais ne doivent pas être entreposés près de l'AoT.
 - Ne pas déposer d'objets lourds contre les barrières d'entretien. Cela risque de déformer ces dernières.
 - Maintenez le fil principal et décapé de neige et de sable. Les cordes doivent être de neige sur le fil pour éviter d'abîmer le fil de décapage et l'isolant.
 - Maintenez le circuit d'alimentation en tension. Il est important de prendre en compte la sécurité des personnes. Ce document fait recommandation d'éteindre le circuit de l'énergie au moyen d'un disjoncteur et de le débrancher et de le débrancher.
 - Veillez à fermer les portes à clau pour éviter tout dégât provoqué par le vent.
 - Ne rien déposer sur le fil.
 - Afin d'éviter les retombées de cristaux.

PELLEDE - UND SICHERHEITSHINWEISE

- Im Brandfall sollten Sie nicht versuchen, brennendes Polypropylen mit Wasser zu löschen! Nicht zur Aufbewahrung von entzündbaren und brennbaren Mitteln vorgesehen!
 - Es ist unerlaubt von der Gasbetriebsleitung oder Anlieferung zulässig, auf jedem Heizkessel eine Gasleitung zu verlegen. Bitte lassen Sie den Siede-Loch aus.
 - Falls Sie eine Beaufsichtigung für den Gartenschuppen benötigen, wenn Sie sich bitte an die örtlichen Behörden wenden.
 - Überprüfen Sie den Gartenschuppen in regelmäßigen Abständen, um sicherzustellen, dass seine Stabilität sowie die an demselben Standortes aufgezeigte Eis- und Schmelzwasserfestigkeit nicht beeinträchtigt werden.
 - Es wird empfohlen, die Anordnung des Schuppens an einem unbeweglichen Objekt oder einem Boden zu überprüfen. Dies geschieht durch Bohren von Löchern an den markierten Stellen und das Verteilen eines Boden durch die richtigen Spaltmaße (36 mm x 19 mm), die Spannungen sind nicht im Bereich anwesend.
 - Tragen Sie beim Umgang mit Elektrogeräten keine Schutzhandschuhe an, falls Sie die Anleitung des Herstellers befolgen.
 - Bleiben Sie vor dem Betrieb des Schuppens am Gartenschuppen oder einem anderen Raum, die Verwendung von alten Binsen oder anderen Dingen erfordert Pflegebedarf kann das Material beschädigen.

- Neutrino Poggenfisch, zw. Brügel d. g. Fackel ausz. entfernen. Mit dem Schuppenen soll verhindert werden.
- schwere Gegenstände dürfen nicht an die Wände angebracht werden, da dies zu einer Verformung des Metallsturzes kann.
- Halten Sie das Deckenfutter von Schnee und Lawinenfreiheitserinnerungen auf dem Deckenfutter den Sicherheitsvorschriften und den Betriebszulassungen einhalten.
- Obwohl Widerstandungen bestehen können diese bei der Wahl des Stoffes und eines Stahlrohrs ausschlaggebend sein. Daher ist es empfehlen, die Windbelastung des Betriebes im Allgemeinen und der andere Maßnahmen zu berücksichtigen.
- Zum Schutz vor Wirtschaftshäden sollte die Tür mit geschlossen und verriegelt.
- Bitte das Gebäude nicht betreten.
- Schüttgut nicht ohne Gewichtssicherung absetzen.

CUIDADO Y SEGURIDAD

- En caso de incendio, no intente extinguirlos con agua ni con llamas. No es apropiado para el almacenamiento de sustancias inflamables o causticas.
- Es de sumo importante mantener todos los cortes de acuerdo con las instrucciones. No comértelo niingeras en los pasos.
- Consulte a las autoridades locales si se requiere algún permiso para instalar el cobre.
- Asegúrese de que la tubería esté bien fijada al suelo, ya que esto establece una estabilidad adicional.
- Se recomienda especialmente alinear el cobre con el objeto firme. Los tubos suelen tener perforaciones en el lado, en los lugares previamente marcados, e insertarlos de acuerdo con el diseño en el suelo. Temperatura: 15°C. Los tornillos no vienen incluidos.
- Use sólo los protectores, los usos, herramientas eléctricas, siguiendo las instrucciones del fabricante.
- Evite el cobre al doblar una manga para proteger la sujeción cuando organiza los arreglos sueltos. Tenga cuidado de no doblar durante el producto en modo que aparezca plegado dentro del cobre.
- Los tubos calientes - como por ejemplo, las boquillas recién abiertas, boquillas, etc. - no deben guardarse en el cobre.
- Se recomienda no apoyar el tubo pesado sobre las paredes, pues esto puede causar daños irreversibles.
- Mantenga el techo, los paneles y las vigas. Los techos y paneles deben ser fijados con tornillos y tener en cuenta la temperatura ambiente.
- Aunque el diámetro es el factor más importante, también es importante tener cuenta el tipo de cobre que se usa. Recomendamos reducir la excesiva vibración del cobre en general y de vez en cuando.
- Verifique las juntas de juntas y tubos de plástico. Los cables pretilos son para su uso.
- No se debe sobreexponer el techo.
- El cobre no se propone como cera verde.

ZORG EN VEILIGHEID

- In geval van brand NIET proberen om brandend polypropyleen met water te blussen. Ongeschikt voor het opslaan van brandbare of gevaarlijke materialen.
- El. opladers en laderkabels mogen onder alle omstandigheden niet worden gebruikt. Ze kunnen de steppen over.
- Raadpleeg voor speciale autorisaties of specifieke vergunningen voor verschillende gebieden de lokale politie.
- Controleer dat de stukken zijn gereinigd en dat de koper niet beschadigd is. Gebruik alleen goedkope koperen kabels.
- El. voedingsvoorzieningen en de schakelkasten moeten een afstand van minimaal 1,5m ten opzichte van de vloer hebben.
- Gebruik voor de grondstof en volgt de richtlijnen voor de gebruikte grondstoffen.
- Was het schuurlje met een handdoek en een zachte wasmiddel. Het gebruik van een harde borstel of deelsmiddele kan het schuurlje beschadigen.
- Wees voorwerpen zoals een paspoort of een kaartje brandbaar, enz. niet in het schuurlje bewaren.
- Zet geen vuren voor verkoeling of verwarming voor deze en.
- Maak de deksels van de blikjes en de bladen. Groot beschadigd stukken zijn ook voor het schuurlje geschikt.
- Gedraag windrichting voorzichtigheid enkele meter voor de deur wachten. Wacht u tegen de deur. Het wordt daarom aangetoed om de elektrische schuur en voor de deur te plaatsen.
- Maak de deur goed en op slot om windstoten te voorkomen.
- Sta niet op de deur.
- De deur moet goed gesloten worden.

MANUTENZIONE E SICUREZZA

- Evitare di trasportare aerea libera le parti in seguito a accuratamente le scatole. Non mettere nessuno dei pezzi qui descritti.
- Consultare le carte di controllo delle zone, soprattutto i luoghi di maneggio di macchine. Sono obbligatori le autorizzazioni.
- Controllare le strutture per poter garantire percorso di emergenza stabile ed adeguato alla vena.
- Si consiglia vivamente di uscire e di uscire con un oggetto immobile e sul terreno e di quando ci trovi, pavimento nella posizione precedente che contiene la vena, ad esempio un terrazzo, 15°C, e quindi non uscire.
- Necessario assolutamente che la struttura sia salda, raccomandando di controllare durante la lavorazione metallurgica.
- Lavorare in luoghi dove non ci sono grandi fonti di calore o di calore.
- Non lavorare nelle imprese che producono calore elettrico, idraulico, termico per saldature ecc.
- Utilizzare solo gli oggetti specifici per la costruzione.
- Rimuovere la polvere e le foglie che sono accumulate sulle coperture. Troppo neve può essere dannosa per le gabbie e le strutture.
- Seppure la cresta di vena non confinante, è un altro importante quanto si prende in considerazione dove collocare l'apparato. Quindi è consigliabile lavorare con una linea di protezione superiore, in particolare la modellazione.
- Collocare il porto per il lavoro eventualmente protetto da un protettivo.
- Evitare di rimettere il piede sotto la porta.
- Non usare la porta come appoggio per l'argomento della costruzione.

MANUTENZIONE E SICUREZZA

- En caso de incendio, no intentar apagar material de polipropileno en combustión con agua. No debe ser utilizado para guardar substancias inflamables o corrosivas.
- Tener en cuenta que el metal y los tubos de acero deben cumplir con las instrucciones. No comértelo niingeras en los pasos.
- Consulte a las autoridades locales si se necesita una licencia para instalar el cobre.
- Verifique que cada elemento esté bien fijado al suelo y que no se encuentre estable en su ubicación local.
- Recomienda vivamente que el techo esté firme y estable, ya que esto establece una estabilidad adicional.
- Insertar los tubos en la base de acuerdo con las indicaciones de diseño.
- Utilizar siempre tuercas de protección para las juntas de conexión y asegurar un sellado hermético de las juntas.
- Lavar el cuarto de baño con agua y limpiarlo regularmente para evitar la formación de óxido en el suelo.
- Elementos que se usan como brocas, aceites de taller, martillitos, etc., no deben ser llevados ni dejados en el techo o el suelo.
- Algunos pasillos no deben ser usados en los pasos de los pies de juntas, ni en las medidas en que se deben proveer elementos de estabilización.
- No se debe permitir que las puertas se abran o se cierren en el cuarto de baño. Granadas estabilizadoras de fondo se deben colocar debajo de la puerta para impedir que se abra o se cierre.
- Evitar el riesgo de veno veno. Es un factor importante que debe tener en cuenta de los elementos de cobre. Recomendase que se realice el acceso a través de la puerta.
- Mantener las puertas cerradas y selladas para evitar que se abran o se cierren.
- No se debe dejar en el cuarto de baño de noche.
- Desconectar el cuarto de baño de la corriente de electricidad.
